A Biological Assessment of the Wapoga River Area of Northwestern Irian Jaya, Indonesia

Andrew L. Mack

in line with a necessity for organic information at the virtually-unexplored forests of Irian Jaya, scientists surveyed the Wapoga River sector and came upon many new plant and animal species, highlighting the significance of the realm for conservation and illustrating the clinical world's constrained wisdom of the region's vegetation and fauna. This ebook presents the result of that extensive survey, which integrated vegetation, aquatic insects, ants, fish, amphibians, reptiles, birds, and mammals.
