# A Tale of Two Sisters by Anna Maxted

Anna Maxted

Cassie is slender, clever, charismatic, successful. the only flaw in her ideal existence should be her marriage. Her sister Lizbet is plumper, plainer, dreamier. An aspiring journalist, she's caught writing embarrassing articles on intercourse for Ladz Mag. Her one fulfillment is her courting with Tim, who thinks she's a laugh and smart. regardless of Cassie being the well-liked child, she and Lizbet have continuously been most sensible friends. yet then Lizbet will get pregnant. compelled aside by way of blunders now not their own, enticed via new loves, and faced via demanding situations they by no means requested for, Cassie and Lizbet fight to rediscover the easy goodness in their sisterhood, whilst their lives take them on a collision process heartache and new beginnings. A story of 2 Sisters is Anna Maxted at her best? a hugely pleasing but deeply regarding tale of sisters who lose their approach and wish one another to discover themselves A Tale of Two Sisters again..

I agree story of 2 Sisters isn't the general Maxted style. It lacks the aptitude and outwardly hilarious moments that her others did. However, this isn't a completely undesirable thing. Maxted creates characters that I love. Cassie is younger, prettier, extra career-oriented, and "harder" in that she does not express her emotions. Lizbet is older, common looking, yet particularly chuffed it doesn't matter what her state of affairs is, care-free and extremely emotional. they're nearly approximately thoroughly opposites- that's basic in lots of sister relationships. whereas reading, you watch Cassie melt and notice herself via courting turmoil, and studying to be supportive of her relations despite her opinion on their decisions. We additionally watch Lizbet lose herself after an lousy occasion that tears her apart. We watch either ladies completely switch their personalities with a view to aid the opposite sister via her life- that's similar to what actual sisters do. we change and alter ourselves to aid after we can, with out thoroughly wasting the "gut" of our A Tale of Two Sisters being. the explanation it is a 3 rather than a 4 or 5 big name ebook is as the e-book used to be a bit... slow. there have been loads of occasions that happened, yes, yet there has been additionally loads of self-inflection that got here off as whiny sometimes. possibly that was once Maxted's A Tale of Two Sisters intent? To make the reader see what Lizbet and/or Cassie used to be doing incorrect in order that we do not do it ourselves? Regardless, it was once a piece demanding to learn these parts. I additionally had a troublesome time switching from side to side among Lizbet and Cassie's stories. The chapters were not lightly damaged up and from time to time it was once challenging to re-register my mind to A Tale of Two Sisters persist with that it used to be "Cassie" talking now, or "Lizbet" conversing now. I virtually wanted it was once advised in 3rd individual all together, in order that the separation of the 2 tales would not be necessary. A story of 2 Sisters used to be an excellent read. It wasn't great, however it wasn't undesirable either. It wasn't as humorous as Maxted's different books, yet there has been a definite seriousness that carried throughout the publication that really gave it extra depth. I loved it.
