A story of a war. A struggle opposed to evil, and its equipment of corruption. interplanetary worlds stand opposed to legions of man-made creatures - creatures first shaped by means of geneticists who, blinded by way of their delight and rebellion, created a race of serious exoskeletal beings. Powerful, enduring, intelligent, and endowed with an ever-growing choice to Aelnathan enslave all else that lives, those creatures are heartless and methodical of their march of conquest. Their grasp is Uednuer, an immaterial being of corruption. those creatures serve him with no question, as he implements his layout to finally rule the actual and metaphysical. For time Aelnathan being, his aim is to beat a definite sunlight approach that has continually given him the Aelnathan most powerful resistance, which includes AErt - the planet the place the bogus exoskeletal creatures got here to being - and IIn - a moon whose population are allied to the population of AErt. This ebook recounts the tale of probably the best warfare that has but ravaged those worlds. giant battles, precarious infiltration missions, braveness and honor, treachery Aelnathan and deceit, new degrees of twisted organic applied sciences - all of those locate their manner into the canopy of this volume. it's a clash of fact and lies, of fine and evil, of purity and corruption.
