Illus. in complete color. "Eye-catching, boldly coloured collages illustrate this vintage 'grass is often greener' tale during which a dwell mouse is resentful of his mechanical counterpart."--Booklist.

i purchased Alexander and the Wind-Up Mouse simply because 1) The little wind-up mouse at the entrance disguise seemed adorable and 2) so did the Caldecott Honor Medal. I've chanced on many different Caldecotts pleasant (Blueberries for Sal, Prayers for a Child, the largest Bear, Thy buddy Obadiah), and was hoping that this one could appeal me as well. It didn't. It was once particularly lovely within the beginning. Alexander is a unfastened mouse who will get chased and shrieked at at any time when he ventures out of his hiding position for a number of crumbs. whilst he meets Willy the wind-up mouse, he turns into jealous – Willy simply has existence a lot higher than Alexander! nobody is frightened of him or chases him, and he's Annie's favourite toy. Alexander starts to need that he used to be a wind-up toy, too. One day, Willy tells him an odd story. Willy's heard that there lives within the backyard a "magic lizard" who can switch one animal into another. Alexander visits this lizard who concurs to Alexander And The Wind Up Mouse alter Alexander right into a wind-up mouse if Alexander brings a pink pebble to him on the complete moon. Alexander searches and searches till he reveals the pink pebble. yet at the final day, he discovers that Annie has grown bored with Willy and has determined to throw him away. Alexander rushes off to the lizard and, rather than asking to be become a finally end up mouse, in its place asks that Willy be changed into a true mouse. The lizard blinks, the pebble disappears, and voila – Willy is a true dwell mouse! Apart from the entire factor of the lizard-with-magical-powers, I simply didn't fairly comprehend this story. It's nearly as if the writer couldn't come to a decision even Alexander And The Wind Up Mouse if to jot down a children's read-aloud or starting reader, so he straddled the fence and created a narrative that's awkward in its Alexander And The Wind Up Mouse room for improvement yet lack thereof. My largest criticism (not morally, yet as a Alexander And The Wind Up Mouse story-teller) is that the rescue of Willy doesn't require any sacrifice from Alexander. He didn't need to sacrifice his likelihood from a cheerful lifestyles (Annie's disposal of Alexander And The Wind Up Mouse Willy proves that Alexander's loose existence is better) – he simply turns the pebble over and hopes for the best. there has been by no means a second of emotional liberate (although there has been lots of drama.) Gracious me. Did I simply write 5 paragraphs a few children's learn aloud? *facepalm* Conclusion. I a lot want the Caldecott medalists that i discussed above to Alexander and the Wind-Up Mouse.
