Diana Wells misplaced music of God in her well-merited quest for achievement within the big apple ads world. Now she's accused of embezzlement, fleeing for her lifestyles with nowhere else to turn. whilst path clothes shop Shepherd Jones runs Diana's motor vehicle off the road, the ex -- united states Marshal is not certain what to make of his comely stray. intuition says this duchess of catastrophe is at the run and desires aid -- a woman like her cannot final lengthy within the forsaken outpost of Buffalo Butte. yet is Shep prepared to danger his lifestyles and his center to provide her an identical safe haven God as soon as supplied him?

This booklet used to be an important permit down approaching the heels of her Irish sequence which I totally loved. I gave it the advantage Along Came Jones of the doubt for 70 pages or so, simply lengthy sufficient to get into it up to now that i'd need to end it (at least in step with my "rules" :D). I figured that the cliché vocabulary will be restricted either in frequency and to which personality used it. No luck. every little thing approximately this ebook used to be cliché and entire of every little thing I completely despise approximately pedestrian Christian writing. What made it worse used to be that it gave the impression of Windsor was once attempting to write a ebook set Along Came Jones within the west of the past due 1800s (which for a few cause is the one time and position that the majority Christian authors imagine they could set their novels) yet this "wild, wild west" used to be truly from a contemporary time. not just used to be the vocabulary awfully pedestrian however it used to be additionally "squeaky clean". you will have visible all of the hoops Windsor needed to bounce via to ensure Along Came Jones the readers knew that the nature was once swearing yet to maintain these swear phrases out of the text. So Along Came Jones now not necessary. I quite desired to like this ebook yet there is simply no way. it truly is moving into the donate pile even if i like to recommend that not anyone reads it.
