the prestigious compendium of sexual oddities, a no-holds-barred therapy of sexual practices during the global and all through time. The paintings makes first-class reading, although it can be criticized for missing any enormous synthesis of its parts and for being unsympathetic to homosexuals and masturbators. Iwan Bloch (1872-1922) -- the daddy of sexual technology -- took his clinical measure from Wuurzburg in 1896 and shortly released his *Ursprung der Syphilis* (1901), which made him the major exponent of the so-called *Morbus Americanus* conception that syphilis originated in America. His *Beitrage zur Aetiologie der Psychopathia Sexualis* used to be an enormous follow-up of Krafft-Ebing, and a number of other works introduced him popularity as a pioneer sexologist.

i'm going to sum up my feeling with a quote from *Anthropological Studies on the Strange Sexual Practises of All Races & All Ages* the book. "The gross debaucheries and atrocious cruelties are lined with a resplendent psychological veil end result of the systematic *Anthropological Studies on the Strange Sexual Practises of All Races & All Ages* exposition of the philosophic rules in all fields of vice. Its justification by means of logical technique in addition to by way of precepts and examples merely makes vice *Anthropological Studies on the Strange Sexual Practises of All Races & All Ages* extra terrible in effect, either for degenerate and common beings"-Iwan Bloch
