# Archaeological Atlas Of The World by David Whitehouse

David Whitehouse

the necessity for an archaeological atlas of convenient size, with world-wide insurance but effortless to consult, has lengthily been felt through each person who has an curiosity in archaeology. now in one quantity are over 100 especially drawn maps pinpointing greater than 5,000 websites and followed by means of explanatory texts. The atlas is split into seven sections, every one prefaced via a observation at the interval or territory covered, and there's a common creation delivering a survey of Archaeological Atlas Of The World three origins and development of archaeological research, meant to function heritage details to the atlas proper. Superimposed on each one map is a standardised grid, via which the precise position of each website can instantly be chanced on through consulting the index on the finish of the volume. Symbols in line with a tabulated key point out the ideal nature of the marked sites.
