# Armageddon 2000 by Kenneth Rayner Johnson

Kenneth Rayner Johnson

all through our current decade, either the media and most of the people - let alone a number of fanatical non secular factions - were pertaining to themselves more and more with the upcoming finish of the millennium and its attainable implications for mankind. Kenneth Rayner Johnson predated them by means of two decades with the booklet in 1975 of The Zarkon Principle, his best-selling premonition of apocalypse within Armageddon 2000 the 12 months 2000AD. Now, with simply 4 brief years left at the clock, Johnson has back with Armageddon 2000, an up-to-date model of his past work. In Armageddon 2000, Johnson not just demonstrates what number of his earlier theories and predictions have already come true, but additionally how his examine within the intervening many years has led Armageddon 2000 him much more forcefully to 1 conclusion: the realm as we all know it really is approximately to end. to arrive this end Johnson has re-interpreted the scriptures of many religions, and the histories and writings of Alchemy, Freemasonry, Magick, Theosophy and different arcane disciplines. He has tested such historic and enigmatic buildings because the Pyramids and Stonehenge; delved into the key lives of Jesus, Mohammed, Aleister Crowley and Adolf Hitler; and researched phenomena akin to UFOs and alien abductions. He has correlated all this data with the latest findings of astrophysicists, theoretical physicists, meteorologists and ecologists, and posed a grim question: how lengthy does mankind have left? And emerged with a terrifying answer....
