Maria Grazia Lancellotti

This quantity offers with the determine of Attis. The paintings goals to think again the legendary and cultic information regarding this character, attempting to offer facts of the procedures of "construction" and "reconstruction" that experience contributed to the moulding of different varieties of Attis that constructed because of a variety of calls for inside of diverse spiritual traditions. After an advent concerning the background of the studies, the 1st half examines the oldest proof on Attis, resorting to comparability with non secular traditions in advance of or modern with Phrygian culture. the second one half tackles the classical global and collects the weather of continuity and of innovation in recognize of Asianic non secular traditions. The 3rd half analyses the matter of the strategies of reinterpretation of the conventional cults that either the "pagan" philosophers and the fathers of the Church effected. The hyperlink among Attis and dying is mentioned within the fourth part.
