the 5th Axis, led by way of a determine from Bernice's past. As Bernice's associates get up to finish the occupation, Bernice embarks on a determined rescue mission, to someplace she final went lengthy ago. Braxiatel confronts his destiny, Jason hazards fascinated with his love, and lives are shattered and lost, because the conflict of the Braxiatel assortment reaches its epic conclusion. Our heroes will stay loose or die... ~ ~ ~ ~ certain  
Note: to maintain the key of the Dalek' involvement during this audio titanic end published a pretend conceal for this audio (on their website) below the identify 'The Axis of Evil'. ~ ~ ~ ~#22 within the Bernice Summerfield Audios (4.4)

I nonetheless have not solely gotten used to the best way mammoth end break up the continued plotline of the Bernice tales among audios and books, so i am not rather convinced if this audio simply begins in the course of the action, or if it keeps on from issues that happened within the books. (All the extra cause to get cracking on a few of the Benny books I picked up within the final enormous end sale, I suppose.) I felt a piece at sea for the 1st few minutes, yet after that it more often than not wasn't a problem. (Except that it relatively felt like i used to be presupposed to understand who pass over Jones was, and that i cannot keep in mind encountering the nature before. Have I simply no longer been paying attention, or has she now not seemed in any of the former audios?) Anyway, the tale is a cracking one: The Braxiatel assortment has been invaded via an influence referred to as the 5th Axis, and Benny makes a suite Bernice Summerfield: Death and the Daleks (Bernice Summerfield Audio Drama #20) of very incredible discoveries approximately who's at the back of them. (Given the title, i guess it is not a spoiler to claim that, yes, it is the Daleks - yet there is a bit extra to it.) there is action, snark, courting drama, poor ethical dilemmas, and Irving Braxiatel being devious - it is with reference to every little thing you'll wish from a Benny adventure. there is additionally an advantage tale at the disc that places a slightly fascinating twist at the "If you'll return in time and kill a toddler who might develop as much as be a terrible genocidal dictator, could you?" dilemma. it truly is lovely picture in its description of the fictitious dictator's acts, though, so be warned - it is not a gentle and pleased Benny tale.
