# Born in the USA: How a Broken Maternity System Must Be Fixed to Put Women and Children First

Marsden Wagner

during this rare, behind-the-scenes examine what is going on in hospitals around the country, an established scientific insider and foreign authority on childbirth assesses the improper American maternity care system, powerfully demonstrating the way it fails to carry safe, potent deal with either moms and babies. Written for moms and fathers, obstetricians, nurses, midwives, scientists, assurance professionals, and someone considering having a child, this passionate exposé records how, within the most costly maternity care method within the world, ladies have misplaced keep an eye on over childbirth and what the aggravating result of this phenomenon have been. Born within the united states examines concerns together with midwifery and the security of out-of-hospital birth, how the method of turning into a physician can adversely have an effect on either practitioners Born in the USA: How a Broken Maternity System Must Be Fixed to Put Women and Children First and their patients, and why there was an increase within the use Born in the USA: How a Broken Maternity System Must Be Fixed to Put Women and Children First of dicy yet doctor-friendly interventions, together with using Cytotec, a drug that has no longer been authorized by means of the FDA for pregnant women. so much importantly, this gripping investigation, supported through many troubling own stories, explores how ladies can reclaim the childbirth adventure for the betterment of themselves and their children. Born within the united states tells:\* Why girls are 70% likely to die in childbirth in the Born in the USA: How a Broken Maternity System Must Be Fixed to Put Women and Children First United States than in Europe\* What motivates obstetricians to exploit risky and pointless medicines and procedures\* How the current malpractice situation has been annoyed through the phobia of accountability\* Why strategies equivalent to cesarean part and start inductions are so with no trouble used

This booklet is within the related vein as Pushed: The Painful fact approximately Childbirth and glossy Maternity Care via Jennifer Block. Your top Birth: recognize your entire Options, observe the typical Choices, and Take again the delivery adventure through Ricki Lake, and The pondering Woman's consultant to a greater delivery through Henci Goer. yet Dr. Wagner additionally increases a number of attention-grabbing matters no longer in these books. within the first bankruptcy he issues out that during the U.S. it really is almost very unlikely to determine precisely how a sufferer was once treated, what the choice remedies were, why that individual bought sure remedies rather than others, and who's dependable if Born in the USA: How a Broken Maternity System Must Be Fixed to Put Women and Children First there has been negligence or malpractice with out submitting a lawsuit. whereas such a lot American doctors do not agree to criminal commonplace of trained Born in the USA: How a Broken Maternity System Must Be Fixed to Put Women and Children First consent, it is quite scary to have this spelled out so clearly. He elaborates in this subject matter in bankruptcy 7, announcing "Many humans think that physicians within the usa Born in the USA: How a Broken Maternity System Must Be Fixed to Put Women and Children First are immune to the belief of nationwide healthiness care simply because they'd make much less money, yet i believe that an both robust cause is the terror physicians consider round disclosing what they're doing and

---

being held answerable for it" (206). Chapter 2 takes the reader into the realm of medical professionals and what Dr. Wagner phrases "tribal obstetrics." medical professionals continue every one other's soiled secrets and techniques to the detriment in their patients. This bankruptcy illuminates how in situations of malpractice or negligence doctors don't need to possibility by way of avoided by means of their scientific neighborhood and should infrequently holiday ranks to file or testify opposed to a colleague. As evidence, Dr. Wagner cites numerous examples approximately how he acquired into scorching water through blowing the whistle on obstetric practices that violated the scientific community's edict to perform evidence-based medicine. Chapter 7 discusses criminal safety afforded to pregnant woman. As pointed out in different opinions of yankee maternity care, obstetricians are likely to practice shielding medicine. "The consistent probability of litigation additionally implies that many obstetricians within the usa cross approximately their perform with a protecting mindset. the choice to do a C-section, which we'd name the last word intervention, is usually established no longer on clinical want yet on a wish to stay away from litigation" (154). medical professionals -- during this box as in lots of others -- are inclined to do what's of their top curiosity rather than the easiest curiosity in their patients. Dr. Wagner presents a crucial piece of data no longer pointed out in different books. this is often that sufferers usually are not required via legislation to signal a hospital's consent shape and they have the precise to customise it to mirror their needs approximately yes treatments. no longer signing any blanket permission shape that enables sanatorium body of workers to do no matter what they deem "necessary" is a smart Born in the USA: How a Broken Maternity System Must Be Fixed to Put Women and Children First piece of recommendation even though it may be given with the caution that the sanatorium could then refuse to regard someone who refuses to signal away his/her rights. He additionally lists the basic criminal rights of girls safe through constitutional, federal, and foreign legislation in addition to moral instructions of the yank clinical organization and the yank university of Obstetricians and Gynecologists. an important of those to recollect being "The correct to revoke consent to therapy at any time, both verbally or in writing" (174). In bankruptcy 8, the writer describes his imaginative and prescient of the way American maternity care can be reformed in response to extra humane Dutch and ecu models. Dr. Wagner then is going directly to define ways in which those alterations should be led to in bankruptcy 9. Born within the united states is a important learn for these attracted to the difficulty for American maternity care. Although, it truly is drier than different books at the related subject and lacks the plethora of non-public stories, and the one first-hand money owed are from Dr. Wagner himself.
