Take a number of chapters from a John le Carré secret agent thriller, upload a healthy dose of unique travelogue, combination with the most effective books on bulb becoming ever written, and you have got Buried Treasures. Given that launching his first foreign mail-order catalog in 1991, Latvian nurseryman Janis Ruksans has speedily received a name as one of many world's premier specialists on infrequent and weird bulbs: Juno irises striped like unique birds; gem-like corydalis; dusky, brooding fritillaries. For decades, Ruksans has been scouring distant and hazardous areas of Europe and Asia to deliver again seed of the botanical treasures that he bargains via his nursery, frequently contending with corrupt executive agents, armed rebels, drunken drivers, or even (before the autumn of the Soviet Union) the KGB. When you learn Ruksans' bills of his wide travels, you are going to by no means examine a flowering bulb within the similar means again. A crocus will take Buried Treasures: Finding and Growing the World's Choicest Bulbs you to the seashores of Lake Abant in northwestern Turkey, a tulip to the mountains of Chimgan in Uzbekistan. Even though event abounds in Buried Treasures, there is a good deal extra for the gardener looking reliable information. In addition to being a well known collector, Ruksans is a grower and propagator of bulbs moment to none, and he generously stocks his expert wisdom concerning Buried Treasures: Finding and Growing the World's Choicest Bulbs the care and cultivation of each significant and minor genus of bulb-forming plant. As richly different because the crops it describes, Buried Treasures will open your eyes to the sweetness and fascination of the realm of bulbs.
