The paintings of The Golden Sufi middle is to make on hand the lessons of the Sufi path.

Blz fifty two e.v. "Ons bewustzijn creëert onze schaduw, en terwijl we opgroeien en de kleding en de waarden van onze cultuur aannemen, beginnen we gebukt te gaan onder dit afgewezen zelf. De reiziger die de reis naar binnen wil maken moet de scheiding in zichzelf aangaan, moet afdalen in zijn binnenste duisternis en het psychologische werk, de confrontatie en de integratie van de schaduw, aangaan. Hij moet zijn eigen duistere kant accepteren wat Jung beschrijft als -de "negatieve" kant van de persoonlijkheid, de som van al deze vervelende eigenschappen die we graag verbergen, tezamen met de onvoldoende ontwikkelde functies en inhouden van het persoonlijk onbewuste. -""Om geliefd en geaccepteerd te worden begint het type delen van het zelf in een onzichtbare zak, die het achter zich aan sleept, Catching the Thread: Sufism, Dreamwork, and Jungian Psychology te stoppen. Catching the Thread: Sufism, Dreamwork, and Jungian Psychology ... Als sommige gevoelens niet uitgedrukt mogen worden in een gezin, ook gevoelens van liefde en tederheid Catching the Thread: Sufism, Dreamwork, and Jungian Psychology niet, vinden deze hun weg naar de onzichtbare Catching the Thread: Sufism, Dreamwork, and Jungian Psychology zak, die langzaam vol raakt met iemands eigen energie, energie die geen plaats heeft in de buitenwereld. ... Liefde en affectie worden "gekocht" door de zak te vullen met de eigen kostbare individualiteit, die van nature vaak eisen stelt die niet welkom zijn."".. Competitie, de drang om tough te werken, en vooral de druk te ervaren om erbij te horen kunnen resulteren in het opzij leggen van het ware zelf om vervolgens te gaan knagen in de duistere hoeken van ons leven, in ons humeur en onze reacties. Gedurende de reis naar volwassenheid worden we individuen en ontwikkelen een bewuste identiteit. Maar tegelijkertijd verzamelt het tegenovergestelde - dat wat we niet willen zijn - zich in de duisternis. ... Gevangen in de dualiteit van onze schaduw projecteren wij die schaduw op anderen. We voelen antipathie ... en realiseren ons niet dat het ons eigen geprojecteerde zelf is waar we op reageren. De kracht van projectie is dat we onze eigen fouten niet hoeven te erkennen, onze eigen duisternis niet onder ogen hoeven te zien."Blz 56"Maar we ervaren niet alleen het innerlijke clash Catching the Thread: Sufism, Dreamwork, and Jungian Psychology van het ego en de schaduw, we voelen ook de pijn van wat afgekeurd en onderdrukt is. De energie van de schaduw die nu in het bewustzijn komt brengt vaak pijn en kwetsbaarheid, lijden en verdriet met zich mee. ... In de donkere afgesloten kamers van het onbewuste kan geen genezing plaatsvinden, alleen een dieper wordende hopeloosheid, angst en wrok. Catching the Thread: Sufism, Dreamwork, and Jungian Psychology Dan, internet zoals een afgewezen en misbruikt type alleen kan antwoorden met boosheid en pijn, worden de inhouden van onze schaduw ook haatdragend. .. Maar toch hoeft de schaduw niet negatief te zijn, wish het kan ongerealiseerde mogelijkheden en creativiteit bevatten. In de Westerse wereld zijn we zo 'geciviliseerd' geworden dat onze instinctieve zelf vaak de schaduw is. Dan leven we niet in harmonie met ons natuurlijke ritme, en onze eigen vitaliteit zit opgesloten in de duisternis. ... Onze imaginaire natuur is maar al te vaak terug gedrongen, de duisternis in, en er is in onze voornamelijk intellectueel georiënteerde opvoeding weinig plaats voor. Kinderen leven van nature in hun

imaginaire wereld, maar wanneer zij naar institution gaan worden zij aangemoedigd lineair te denken en te stoppen met dromen. Dus wordt de verbeelding gemakkelijk afgedankt, en de televisie neemt de plaats in van de creatieve fantasieën." WOW!Blz 142"Zingeving komt niet van de buitenwereld, maar van binnenuit, van de archetypische wereld. De oorspronkelijke, archetypische wezens die daar wonen dragen een stempel met betekenis. De archetypen hebben geen identificeerbare betekenis; zij betekenen niet iets specifiek in die zin dat 'bon' in het Frans, "goed" in het Nederlands betekent. Zij hebben veeleer eigenschappen van betekenis; zij maken dingen betekenisvol.noemt dit soort betekenis "existentieel"; het is "wat we bedenken wanneer we zeggen dat het betekenisvol is". We hebben echter, omdat onze taal zich heeft ontwikkeld om de uiterlijke wereld van de zintuigen te beschrijven, heel weinig woorden om dit variety betekenis te beschrijven. We kunnen zeggen dat iets "heel betekenisvol" is of "zeer veel betekent", maar de verschillende manieren waarop de dingen betekenis hebben, kan niet worden uitgedrukt. Dit geldt ook voor de taal van onze gevoelens. In het Sanskriet zijn er zesennegentig woorden om de liefde te beschrijven, In onze taal is er slechts een woord; de armoede van onze gevoelens wordt weerspiegeld in de armoede van onze taal. Wij hebben de verschillende kwaliteiten van gevoel niet benoemd omdat we ze niet gewaardeerd hebben. De afwijzing van het vrouwelijke is er de oorzaak van dat de betekenisvolle kwaliteiten die zij met zich meebrengt weg worden gelaten uit ons leven."
