Now that Sasha Silver and her horse, Charm, have confirmed that they are beneficial rivals for the Canterwood Crest equestrian team, Chasing Blue (Canterwood Crest #2) Sasha's psyched to come back to school...until self-proclaimed It girl, queen bee, and proprietor Chasing Blue (Canterwood Crest #2) of the I'm-so-way-better-than-you-are attitude, Heather Fox, is assigned as Sasha's driving partner. Not. Good. And whilst Heather starts off spending a bit an excessive amount of QT with Sasha's almost-boyfriend, Jacob, their partnership is placed to the final word attempt

i believe this is often the most effective center Grade sequence i have read. it's a very lifelike and relatable portrayal of lifestyles at that edge, and the tale is fast moving and exciting, with plenty of ups and downs. I like that even supposing Heather is the "mean girl" to our MC, the reader nonetheless sees different aspects to her: Her hopes and dreams, her being nice, her being a powerful workforce mate. We additionally see why Heater may lash out in the direction of Sasha and folks means from time to time - She feels insecure simply because her father places rather a lot strain on her not only to succeed, yet her whole destiny is determined by her doing good otherwise she is going to be pulled out of school. I additionally like that issues will not be transparent minimize and completely resolved - they're messy, like how lifestyles really is. humans do not regularly inform Sasha what they mean, she does not understand if the 2 boys like her, she does not become aware of that considered one of her top pals is mad at her over anything she cannot control. (the boy she likes has a weigh down on her) Sasha is a superb heroine. She is sensible and believes in herself, yet also, such a lot importantly, she falters. She does poorly in a few driving competitions, she will get drawn into petty fights, she fails exams that she has labored challenging for. She makes blunders which can pay for, yet she additionally learns from them. This sounds like will probably be an ongoing subject matter through the series: her difficulties are usually not magically solved and her existence is not ideal on the finish of the book. i feel it is so clean to learn a narrative approximately a less than Chasing Blue (Canterwood Crest #2) perfect heroine, rather than analyzing concerning the bravest, strongest, smartest, or in regards to the child that does mess up, yet issues nonetheless determine within the end. I locate Sasha is a really practical 14-year-old, and that i may have enjoyed those books at that age. She acts like a fourteen-year-old, although she is one with a section extra accountability as a result of being at Canterwood. i will be able to Chasing Blue (Canterwood Crest #2) nonetheless take pleasure in them now simply because i Chasing Blue (Canterwood Crest #2) feel the tale telling is particularly powerful and the twists and turns hold you reading. It additionally is helping that i will be able to see a few of Chasing Blue (Canterwood Crest #2) myself in Sasha. I cannot suggest this sequence enough, to any age group!
