completely loved this book. The characters have been incorrect yet good written. I loved that none of them had an ideal existence or had all of the answers. It makes it more uncomplicated to love them after they are extra relateable. Carine has a pleasant existence that is quiet and peaceful. She and her siblings have been raised by way of an uncle after her mom and dad tragic deaths. Her uncle is overprotective, as is her brother and sister, yet all of them suggest well. Carine stumbles into whatever that has humans capturing at her, she does not even recognize anything. yet 3 males come to her rescue, one in every of them is a lifestyles lengthy friend, Cold Ridge (Cold Ridge/U.S. Marshals #1) Tyler, that used to be the common boy turning out to be up. that they had no need for every except to torment. issues swap while he unearths her zigzaggin from bullets within the mountains. A yr later, he walks clear of their engagement one week shy of the wedding. Carine is devastated. Surrounded by way of stories of Ty, she strikes to Boston to 'take a break'. whereas there, she unearths a lifeless physique and every little thing is going south. Ty comes again into play while a mutual good friend calls him to guard Carine. The chase takes them again to the mountains they either love...but it does not remain peaceable and safe. Ty is attractive and endearing. Carine is spunky and likeable. There is, of course, the satisfied finishing I love! I suggest this booklet to people who like action, romance and a cheerful ending.
