The Art of
Ground Reference Flying

JIM DULIN

Contact Flying by Jim Dulin

Jim Dulin

in contrast to traditional aviation authors and teachers i don't educate fundamental flying, crop dusting, pipeline patrol flying, bush flying, helicopter scientific evacuation flying, and air to floor gunnery utilizing tools contained in the plane because the basic situational know-how tool. quite I train Dutch rolls, gradual flight and stalls over the runway, the strength administration turns, use of floor impact on all takeoffs, the brisk stroll obvious fee of closure approach, hover taxi in fastened wing aircraft, and coffee point low energy mountain flying utilizing sights, sounds, Contact Flying smells, and kinetics. Sight is used 99.9% of the time the ground. Airspeed, nor the other tool is utilized in takeoff or landing. this article teaches the artwork of flying within the old-fashioned at low point utilizing flooring references. Its writer has over 16 thousand hours of flying military helicopters, crop dusters, and pipeline patrol airplanes at 3 ft to 5 hundred toes above floor level.

Contact Flying
