# Dark Leopard Magic by Sapphire Phelan

Sapphire Phelan

Dev Tollen is a guy with a dismal previous and an excellent darker soul. greater than that, he is a homosexual wereleopard. He hasn't ever had the Dreaming and not met his real mate. yet one evening the Dreaming does come and divulges his lover, an African guy named Montsho, additionally an alpha black wereleopard. Montsho will struggle their love and their destiny. Dev will do all he can to win his beloved's center and retain him by means of his part always. Then a ghost begs Dev to resolve his wereleopard lover's murder. either males will locate that their new-found love verified and their lives in danger. Their idyllic time in paradise is set to be torn asunder after they realize who's the murderer.

First reviewed for [www.theromancereviews.com](http://www.theromancereviews.com) My overview at TRR:

<http://gblt.theromancereviews.com/vie...> The writer provides this shifter romance a voice all its own. The characters are good written and feature to speedy (but believably) increase for the velocity of the story. the Dark Leopard Magic 1st few paragraphs trap your attention. Lyrical and poetic variety combined with darkish romance and Dark Leopard Magic intercourse draw you into the character's global immediately. How he feels approximately his mother's arrival in the US from India, his kind. His struggle to slot in grows extra tenuous with each one life-changing incident as a youth, similar to puberty. Or wasting his mother. the necessity to locate others like him, making him ache. whilst wereleopard Dev has his imaginative and prescient (the Dreaming, his mate vision), Dev purely needs he'll locate his mate soon. The Dreaming for Dev leads him to Montsho, additionally a black wereleopard (which he'll examine is from South Africa). Montsho has hassle accepting his Dreaming, of being mated to a male. in contrast to Dev, Montsho had by no means lain with a male, yet his lust for his mate couldn't be denied. after they are united, the tale does good with expressing their love and being concerned each one other. The lust they suppose whereas looking for one another is fantastically advised with sexually-charged love scenes (told from either Dev and Montsho's POV) when they come together. Dev hopes loving Montsho will transparent the darkness weighing his soul, whatever he believes used to be planted from the union among his Indian mom and American father. while the ghost of a guy who had Dark Leopard Magic a wereleopard lover involves Dev to invite his aid to unravel his lover's murder, Dev realizes there's one more reason he was once attracted to the cottage he and Montsho share. To Montsho's horror, his personal prediction used to be coming true, that the rouge have been who's suspect within the homicide have come to take Dev down. i admire seeing how the writer made a undeniable fantasy her own. The magic during this romance is refreshing. In conclusion, i actually loved this homosexual shifter interracial romance. the entire parts combined and felt right. The velocity of a narrative is often an important while i'm interpreting a brand new author, so i used to be happy the plot was once woven into the most characters' lives, of becoming a member of and mating. I enjoyed analyzing darkish LEOPARD MAGIC and watch for extra from this author.
