DARK RAIN

Dark Rain by Conor Corderoy

Conor Corderoy

during this futuristic mystery set in England, the rustic is basically a bleak desert as a result of 35 years of perpetual rain, which has divided society into 3 groups—Domers, who stay in Domed cities; Drys who do not yet have shelter; and Wets, who stay in shanties. The teams are united in simple terms via their worry of an drawing close alien invasion. in contrast oppressive background, reluctant hero Inspector O'Neil takes a serious battering as he attempts to bare the darkish reasons surrounding what seems to be a brutal ritual homicide of a Dry who Dark Rain has had his center reduce out. O'Neil, too clever and cynical for the style of the experts who're it appears engaged Dark Rain in a big cover-up, is quickly faraway from the case and fast fired earlier than justice is done. worried yet determined, he will get aid from an unforeseen quarter, and is privately commissioned to unravel the case. he's confronted via competitors of utmost strength with an unremittingly evil agenda. within the face of a Dark Rain very likely bleak future, this tale offers hope and reassurance that the upkeep of ethical and social values in the course of chaos might opposite the decline.

this can be this sort of style I enjoy; the futuristic, dystopia setting. And when Corderoy evidently attempted very challenging to create a bleakly gray (no pun intended) setting, his negative narration talents fall wanting what might have been an differently very relaxing read. Cue lots of grammar fails i discovered myself correcting in my imagination virtually continually, typing errors, spelling error and plot holes. (In one scene, Don used to be below the influence O'Neal's identify used to be Smith, and but Don refers to him as O'Neal in a heated speech.) Scenes and settings weren't effectively defined (it took me your time to understand this was once set in England), the characters all spoke within the comparable means and there has been almost NO description of what they regarded or sounded like. all of them appeared samey and one-dimensional, and so they had no personality development. examining an analogous words reminiscent of O'Neal announcing "I'm lovely like that" turned repetitive, yet that is not Dark Rain anything compared to the dire discussion the most personality spoke. Plus, just about all of the characters have been male, with the exception of Elizabeth Keyhoe and for Rebecca. This i've got an issue with. Betty was once pretty well defined as a (rich) damsel in misery without backbone, and Rebecca used to be a waste of space. Despite those many flaws that nearly made me hand over interpreting on many occasions, i wished to understand how the e-book finished. All in all, now not the simplest ebook i have read. i will be doing my bit and giving it again to the charity store i purchased it from.
