# Der Tag des Drachen (WarCraft #1) by Richard A. Knaak

Richard A. Knaak

Hinter den nebulösen Schleiern der Vergangenheit verbirgt sich die Welt Azeroth mit all ihren wundersamen Wesen. Mysteriöse Elfen und kräftige Zwerge lebten mit den Stämmen der Menschheit in relativem Frieden und Harmonie - bis eine dämonische Armee, die sich Brennende Legion nannte, die Ruhe dieser Welt auf ewig vernichtete. Jetzt kämpfen Orks, Drachen, Goblins und Trolle um die Macht über die zersplitterten, kriegführenden Königreiche, doch dies ist nur Teil eines großen, bösartigen Plans, der über das Schicksal der WARCRAFT-Welt entscheiden wird. Furchteinflößende Ereignisse in den höchsten Zauberkreisen der Welt zwingen den jungen Magier Rhonin zu einer gefährlichen Reise in das von Orks kontrollierte Land Khaz Modan. Dort entdeckt Rhonin eine gewaltige, weitreichende Verschwörung, Der Tag des Drachen (WarCraft #1) die dunkler ist als alles, was once er sich je vorstellen konnte. Diese Bedrohung zwingt ihn zu einer gewagten Allianz mit uralten Kreaturen der Luft und des Feuers. Mit ihrer Hilfe wird es für die Welt Azeroth vielleicht ein Morgen geben.

global of Warcraft: Day of the Der Tag des Drachen (WarCraft #1) Dragon, via Richard A. Knaak "Day of the Dragon" used to be the 1st e-book to be written within the Warcraft online game universe. yet whereas it really is in keeping with a online game series, the publication is essentially a piece of unique fiction with tricks of the tale coming Der Tag des Drachen (WarCraft #1) from the game. Knaak took the setting, characters, and occasions from the Warcraft universe and developed them into an enjoyable, readable novel. Although it truly is invaluable to have a few familiarity with Warcraft, such wisdom isn't had to comprehend the history of the book. Knaak spends your time at first establishing the scene for unexpected readers, and clean it when you have performed the genuine time method game. i feel that he's the person who took the dragons in Warcraft and very Der Tag des Drachen (WarCraft #1) fleshed them out; he has an outstanding contact with the behemoths. Their splashes of egotism mixed with exact personalities cause them to look extra strong than the "regular" population of Azeroth; you could simply see them meddling in mundane affairs, considering they're doing the proper thing. The major tale of "Day of the Dragon" comprises Rhonin, a mage, being despatched on an commentary venture into orc-held territory. He believes it's a likelihood to redeem himself for his prior adventure, person who went disastrously wrong. yet his probability fast becomes a lot more, as he's truly the pawn of 2 dragons who're every one trying to advisor him into enjoyable their very own devious plans. Novels in accordance with video games will be very, very susceptible - frequently basically loved through hardcore fans. yet "Day of the Dragon," whereas set within the Warcraft universe, is far greater than basic tie-in fiction. Knaak pens a memorable Der Tag des Drachen (WarCraft #1) book, one who saved me examining long gone my bedtime, as I saved analyzing "just another page" to determine what Der Tag des Drachen (WarCraft #1) might take place next. The plot is ace, the characters are humans you need to recognize extra approximately and also you are looking to see them succeed, and the writing is solid. If you loved this book, fee his "War of the Ancients" trilogy, which maintains the tale of Rhonin and the dragons. 4/5.
