This ebook replaced my lifestyles in each way. this can't be a precise review, simply because I learn this booklet 14 years ago. i'm including it to my Dirt Greed & Sex pile to re-read, and maybe after I do, i will supply a considerate review. What i will say with out re-reading it, though, is this booklet thoroughly upended my trust system, and as a result, my life, via top me to reexamine via a old lens every little thing I were raised to think approximately religion, God, Christianity, men, and women. Ultimately, i've got revised or discarded thoroughly just about all of these ideals (but now not my center values, that have develop into superior within the process). as well as triggering that difficult, rocky, treacherous, and onerous yet profitable journey, which maintains to this day, this book, greater than any other, taught me that each tale has one other side, and (at the chance of sounding trite) that the unexamined trust Dirt Greed & Sex is not worthy believing.
