

## **Dragons: A Beautifully Illustrated Quest for the World's Great Dragon Myths**

Jonathan D. Evans

Dragons and dragon myths are ubiquitous in international historical past and culture. This booklet takes you on a trip in the course of the nice japanese and Western dragon myths, from historical Babylonian production tales to the recognized legend of St. George. superbly illustrated with exceptional paintings, engravings, and sculptures from history, this quantity indicates how the mere point out of dragons has encouraged creativity in such a lot of cultures.

---

an grand book. At first, it gave the impression of a typical espresso desk book, however the wealth of pictures, the written info and the particular sort of writing all took me early within the publication and did not allow move even after i ended it. Basically, Evans retells dragon tales from all over the world, including the following and there a little bit information regarding the paintings and the area during which the stories have been told. assets also are integrated on the finish of every story and extra readings are indexed on the end. past anything, this is often only a enjoyable ebook to read, although the ebook gets 5 stars from me simply because i actually take pleasure in Jonathan Evan's method of mythology and legend: that it may be checked out with complete wisdom of a tradition and from their standpoint, not just our own.

## **Dragons A Beautifully Illustrated Quest For The World S Great Dragon Myths**
