De oude wereld van het Middellandse-Zeegebied is in veel opzichten de bakermat van zowel de Europese als de Een Kennismaking met de Oude Wereld islamitische beschavingen. Tal van zaken die de westerse cultuur tot op de dag van vandaag bepalen, zijn in de periode van 3500 voor Christus tot 500 na Christus ontstaan. Te denken valt aan moderne rechtstelsels en aan de wijsbegeerte, die zonder het Romeinse recht en de Griekse filosofie ondenkbaar zijn. Het Jodendom en het Christendom zijn in de Oudheid ontstaan en ook de Islam heeft heel wat aan de Oudheid ontleend. Dit boek biedt een kennismaking met deze oude wereld. In de eerste zeven hoofdstukken wordt het Oude Nabije Oosten besproken. Vervolgens staat de Griekse wereld in de volgende vier hoofdstukken centraal en tot slot komt Rome in de laatste vijf hoofdstukken aan de orde. De auteurs richten hun aandacht met identiteit op verschijnselen die van algemeen historisch belang zijn en die van invloed zijn geweest op de latere westerse beschaving, zoals maatschappijstructuren, staatsvorming, machtsverhoudingen, sociale conflicten, politieke theorieën en godsdiensten. Een kennismaking met de Een Kennismaking met de Oude Wereld oude Een Kennismaking met de Oude Wereld wereld is een heldere en rijk geïllustreerde inleiding in de geschiedenis van de oude wereld en is dan ook geschikt voor een breed publiek van belangstellenden. Deze zesde druk is ingrijpend herzien. Niet alleen is de tekst aangepast aan de laatste wetenschappelijke stand van zaken, ook het formaat en de opmaak zijn gewijzigd. L. de Blois is hoogleraar oude geschiedenis aan de Katholieke Universiteit te Nijmegen. R.J. van der Spek is hoogleraar oude geschiedenis aan de Vrije Universiteit te Amsterdam.

primarily this is often meant for yr one undergraduates and offers an excellent easy creation to historical historical past in a simple, succinct style. a few sections even though are too easy and therefore woefully short, even for an introductory book. Consequently, it's going to fast lose its worthy Een Kennismaking met de Oude Wereld to an undergraduate student. A way more invaluable selection in my view will be 'A spouse to historic History' via Andrew Erskine (ISBN:9781118451366) which, while definitely going into extra intensity than 'An advent to', doesn't overload the reader - in particular person who has actual curiosity in old history. it's going to hence be of way more worthy to the undergraduate or enthusiast.
