"More than a romance, Mallery has crafted an exceptional story of small-town life, relatives relationships, and forgiveness." —Booklist on Falling for Gracie

Falling For Gracie is the fitting name for this book, as you cannot aid loving Gracie and rooting for her. At the soft age of 14, Gracie Landon grew to become recognized - or fairly notorious - in her hometown, Falling for Gracie (Los Lobos #2) Los Lobos, for her wild weigh down on her 18-year-old neighbor, Riley Whitefield. She "loved" him with all her center and wasn't afraid to teach it, stalking him in all places and primarily enjoying havoc together with his and his girlfriends' lives. That took a unique form of courage, the folk of Los Lobos beloved to say. That took a unique type of insanity, Riley and Gracie's mom thought. So while Riley stumbled on himself compelled to marry Pam, his pregnant girlfriend, the complete city began to ask yourself what Gracie could do... in addition to mendacity down in entrance of his automobile and telling him she enjoyed him an excessive amount of to permit him marry that sneaky Pam and if he was once going to move forward with the engagement, he should still simply run her over and placed her out of her misery. Ah, not anything like teenager drama to enliven things! yet Gracie's mom could not take her daughter's antics anymore, and despatched her away to stay along with her aunt and uncle. It's 14 years later now, Gracie is a successfull marriage ceremony cake maker residing in la and has left her loopy years in the back of decades ago. while her estranged mom asks her to assist with the arrangements for her (Gracie's) more youthful sister's wedding, Gracie concurs to maneuver again to Los Lobos for six weeks in hopes of having reacquainted with the kinfolk she's hardly visible within the final 14 years. yet issues do not cross therefore to her plan, simply because Riley is usually again on the town - single! - and everyone, together with Gracie's mom and sisters, expects her to make a idiot of herself over him in every single place again. not anyone turns out to care that Gracie has grown up and gotten over her overwhelm on Riley, and her loopy teenager antics are rehashed at the newspaper. Can Gracie's humiliation get any worse? in fact Falling for Gracie (Los Lobos #2) it can! due to Gracie's older sister, who may still fairly tips on how to speak along with her husband rather than getting her sister in hassle after trouble, Gracie finally ends up knotted up in Riley's existence again. Riley has merely lower back to Los Lobos to satisfy a of his deceased uncle's will: on the way to inherit his estranged uncle's millions, Riley needs to end up that he is develop into "respectable" by means of working for mayor and winning. An entanglement along with his former stalker Gracie is not wise, yet he can not help being charmed by means of her. It does not take lengthy until eventually the appeal among them takes over and ahead of he is

aware it, he begins falling for Gracie. yet there is something amiss occurring in town... who is plotting opposed to Riley and Gracie and taking "compromising" photos of them? who is attempting to wreck Gracie's business? And what approximately Gracie's family? Will they ever get a clue and begin respecting her? This e-book was once quite often approximately Gracie and that i simply enjoyed her. She was once sweet, witty, humorous and delightfully adorable. i needed her to be happy, now not simply because that is what I frequently wish for the heroines within the romance books I read, yet simply because i actually cared for her. i needed her to get her man, Riley, no longer simply because he was once the hero, yet simply because she enjoyed him and he or she deserved it. i needed to smack her mom and her sisters simply because they damage her, and that i desired to throttle that deceitful Pam. Riley was once extra "complicated" to me. Sure, he used to be likeable and total nice, yet i could not aid considering he wasn't the neatest cookie within the jar. I mean, he knew rather well the phrases of his uncle's will, so he must have guessed who was once in the back of his loss of life and placed a cease to it. I additionally notion that a few of his activities pertaining to what might occur after his election have been chilly and uncaring, yet not less than he used to be sincere approximately it with those that have been as regards to him Falling for Gracie (Los Lobos #2) and that helped to "redeem" him in my eyes. Plus, his refusal to take advantage of his courting with Gracie to avoid wasting his campaign/election used to be ideal and that i ended up liking him. The finishing was once a section uneven, with the predictable yet OTT unmasking of the villains and Gracie's a little bit lackluster final antic - contemplating her past, i used to be anticipating anything higher and bolder. Oh well, I must have stopped performing just like the great fogeys of Los Lobos, looking ahead to Gracie to be an identical loopy 14-year-old. After all, she had changed... "What do you think?" Gracie asked, sounding greater than a bit nervous. God, she regarded great. "That you're crazy." "Good loopy or undesirable crazy?" "There's a difference?" "Oh, sure. i used to be undesirable loopy before, whilst I stalked you. i admire to imagine I've changed." All in all, this used to be a really fascinating and relaxing read. virtually perfect.
