"Sometimes you'll want to inform a mislead locate the truth" Her sister had lived this kind Her Sister's Secret of mystery life, Whitney Sheffield did not even be aware of that Morgan had a three-year-old daughter. In a determined cellphone name prior to her death, Morgan had begged Whitney to discover the little girl, to rescue SaraJane from her harmful father--a guy referred to as Rhys Gannon. whilst Whitney tracks Gannon all the way down to a small position in Arizona, she lies approximately why she's there...and what she desires from him. yet opposite to what she expects, Rhys turns out to surely love his daughter. In fact, the extra Whitney sees of him, the extra he "doesn't" resemble the fellow her sister described. Whitney is familiar with she "has" to find Morgan's secret. Because, love it or not, she's fallen in love with Rhys Gannon.

My first booklet through this writer and what an stress-free read. as soon as i began examining I stored turning the pages and rooting for this couple. It's an emotional tale as the writer brings Rhys and Whitney to existence at the pages revealing their internal struggles with facing their very own self-inflicted guilt for his or her perceived mess ups to maintain their kinfolk members. It's a narrative approximately love among a guy and a woman, love in your sibling, love to your baby and your grandchild in addition to a glance at dysfunctional love at diverse levels. The hero is a biker (no MC's here) and a customary alpha male who loves deeply. Whitney is a strong, self reliant lady who feels she failed her sister. It's additionally a narrative of seeing the impression of assuming whatever is correct if you happen to don't have the entire facts. Whitney learns the demanding means that her assumptions approximately Rhys have been absolutely wrong. Rhys learns that although you are making many blunders whilst you're young, there comes a time while each person should be liable for their very own actions. This e-book is a real love story. There's a great deal of sexual tension/chemistry yet no longer many targeted intercourse scenes, which was once wonderful with me. the tale and the sluggish construct of the connection hooked me completely. i actually beloved this author's writing variety and her skill to weave a gripping tale that has you rooting for the characters and in need of them to have their HEA.
