A suspicious baby-sitter . . . a couple of conspiracy theorists . . . extra mystery codes Hide and Seek (Spy X #2) from secret agent X. Twins Evie and Andrew have greater than a secret on their hands. Evie and Andrew have continually questioned what occurred to their mom after she disappeared on their birthday. Now they're beginning to discover . . . and the consequences are very surprising. Their mom used to be into anything big, and now the twins are being drawn in as well. no one - no longer their baby-sitter, now not their new university friend, no longer a couple of menacing bikers - is who she or he seems to be to be. yet Evie and Andrew must discover the reality in the event that they ever are looking to see their mom again.

Okay, wow. one other cliffhanger. I GOTTA end THIS SERIES, it really is AMAZING!! recognize what you are thinking. If i believe this sequence is amazing, then why in basic terms 4 stars rather than five? Well, the one cause i am ranking this sequence 4 stars is simply because i do not just like the disobedient aspect, with Evie and Andrew realizing complete good what used to be correct and what went opposed to their dad's rules. yet every thing else is, just...wow. The writing, the Hide and Seek (Spy X #2) characters' development, the surprises, the codes - they're all rather well thought-out. i'll by no means resolve the codes by way of myself, allow me inform you that. every thing that the writer throws at me retains me on facet and steals my realization even from rewatching the 1st sequence of Downton Abbey, which my mother has taking part in Hide and Seek (Spy X #2) instantly at the TV. The in basic terms more thing that bugged me approximately this e-book (besides the disobedience) was once the scene within the shoe store. (view spoiler)[It drove me nuts while Evie and Andrew have been accused of stealing, although I knew they'd overwhelming "evidence" that they have been shoplifting. yet they weren't, and the writer knew that, Evie and Andrew knew that, and that i knew that. i do Hide and Seek (Spy X #2) know it'll were quite difficult to get by means of that with out them being accused and accepting being grounded through their dad due to it, however it kinda drove me nuts. a minimum of they did not have any fees pressed opposed to them. (hide spoiler)]I have extra books to go, and that i plan on beginning the following one ASAP!
