i'm surprisingly conflicted via this book. Firstly, my suspicions in Honor Blade (Star Trek: The Original Series #96) regards to the past e-book have been proven whilst this ebook all started with 'Chapter Six'. It however, didn't simply bounce into the action, and spent one other 2 overly lengthy chapters carrying on with to set the stage. After that, it used to be all go, yet nonetheless left me feeling empty, considering Honor Blade (Star Trek: The Original Series #96) that it truly is transparent the writer is establishing for a end book. Having acknowledged all that, i couldn't placed it down, yet given my issues of it, cannot provide five stars.
