Non c'è morbosità apparente dietro le azioni del serial killer che tiene in scacco Los Angeles città di New York. Non sceglie le vittime seguendo complicati percorsi mentali. Non le guarda negli occhi a una a una mentre muoiono, anche perché non avrebbe abbastanza occhi in step with farlo. Io sono Dio Una giovane Io sono Dio detective che nasconde i propri drammi personali dietro a una solida immagine e un fotoreporter con un passato discutibile da farsi perdonare sono l'unica speranza di poter fermare uno psicopatico che nemmeno rivendica le proprie azioni. Un uomo che sta compiendo una vendetta terribile according to un dolore che affonda le radici in una delle più grandi tragedie americane. Un uomo che cube di essere dio.

an enticing thriller, good written, with a number of universal materials during this kind of narratives, and that used to be capable of seize the reader attention. I thought of it a great e-book till I achieve the tip of it... yet one step on the time. Vivian, a brand new York police detective is named for the research to determine the writer of a sequence of bomb attacks, which brings again many of the ghosts of the 9-11. in the course of the investigation, the journalist Russell, who had in the meantime fallen in disgrace, will get additionally involved. i feel I don't Io sono Dio need to upload the truth that those characters shape the romantic couple of the tale (of course!). all through historical past we're faced with the prior of the Vietnam War, in addition to with a collection of private matters that issues Vivian and Russell. And of course, the murderer - who claims himself as God - is discovered. However, the end, as presented, left Io sono Dio me a sour style incidentally it sounded artificial. If, at the one hand, the writer takes us via devious ways, casting a few confusion in regards to the id of the writer of the attacks, at the other, the result sounds too pressured to please. Of course, Io sono Dio i can't show something extra approximately this. I don't are looking to destroy the excitement of these who are looking to learn this book. regardless of this my opinion, i believe it's a ebook should you like thrillers. As i used to be interpreting the book, i used to be confident to offer four stars. However, this opinion faded, leaving consequently the ranking of three out of 5.-----Um mystery interessante, bem construído, com alguns ingredientes comuns neste tipo de Io sono Dio narrativas, e que consegue em certa medida prender o Io sono Dio leitor. O livro até foi bastante interessante até chegar ao final... Mas vamos por partes. Vivian, uma inspectora da polícia de Nova Iorque vê-se a braços com a investigação que tenta chegar ao autor de uma série de atentados bombistas, trazendo de volta alguns dos fantasmas do eleven de Setembro. No Io sono Dio meio desta investigação acaba por envolver-se o jornalista Russel, que entretanto tinha caído em desgraça. Não será necessário acrescentar que estes dois formam o par romântico da história (não podia faltar, não é). Ao longo da história somos confrontados com o passado da guerra do Vietnam, assim como com os diversos problemas pessoais que assolam as personagens principais desta história. E claro, o assassino - que afirma que é Deus - é descoberto. Mas o final, tal como foi montado, acabo por deixar um certo amargo de boca, pela forma man made como ele se apresenta. Se, por um lado, o autor nos leva por caminhos tortuosos, lançando alguma confusão sobre a identidade do autor dos atentados, por outro, o desenlace soa demasiado forçado para agradar. Naturalmente, não irei revelar mais nada a este respeito para não estragar o prazer de quem

queira ler este livro. Apesar desta minha opinião, penso que é um livro para quem gosta de thrillers. Se, a medida que ia lendo o livro, estava convencido em dar four estrelas, essa opinião esmoreceu bastante, ficando, por isso, pela classificação de three em 5.
