Just Like a River by Muhammad Kamil Al-Khatib

Muhammad Kamil Al-Khatib

Thought via many Syrians to be the main influential novel of its time, this primary novel of Muhammad Kamil al-Khatib is a riveting exam of Syrian political and social lifestyles throughout the 1980s. With a multi-voiced narration carried, like a river, from one voice to another, al-Khatib paints concise, bright images of a disparate staff of individuals in Damascus, starting from an older officer within the Syrian army, to a school scholar coming to phrases along with her sexuality in a conventional context, to a British Orientalist on sabbatical, to a disenchanting activist who needs to reconcile his beliefs with the realities of warfare and town life. Even though the particularities of the explored lives can be quintessentially Syrian, the fight among the generations, among males and women, among state and city, and among victor and vanquished are overseas in scope.

A Syrian novella, set in Damascus within the early 1980s, exploring the undying issues of tragic romance, worry of and charm to outsiders, and dealing with modernity. It's very clear, quickly and simple to learn even though rather sad. The entire characters are visible stereotypes, however the writer nonetheless manages to precise the complexity of relationships - even intellectuals are human! A humorous quote: "Understand her, try and understand her. Figuring out [the books] *A Saint's Lamp*, *A Chook from the East*, *Season of Migration to the North*, or *The Voices of Suleiman Fiyad* doesn't make you smart. What will be shrewdpermanent is to appreciate Dallal [the heroine]."
