# Kilauea by Phil Giriodi

Incandescent fountains of fire dance in gradual movement emerging enormous quantities of toes into the evening sky. A 20 foot wall of molten lava strikes via a local demolishing every little thing in its path. Not anything can cease it. Then benefit from the serenity of a Hawaiian rainforest. Hawaii's rainforests are lush tropical hothouses. The smell of Kilauea ginger blossoms fill the air. Waterfalls cascade to Kilauea the sea. A tropical typhoon violently shakes the woodland via a rainbow and a brand new day. All is serene once more as one stops to benefit from the attractiveness and appeal of this paradise on earth. The sweetness and attraction of a Hawaiian rainforest. Produced & photographed via Emmy award winner, Phil G. Giriodi.
