L'image inconsciente du corps by Françoise Dolto

Françoise Dolto

Il ne faut pas confondre l'image du corps avec le schéma corporel. Le schéma corporel spécifie l'individu en tant que représentant de l'espèce : il est, en principe, le même pour tous. L'image du corps, par contre, est propre à chacun : elle est liée au sujet et à son histoire. help du narcissisme, elle est éminemment inconsciente. C'est l'incarnation symbolique du sujet désirant. Sur los angeles base de ce concept, et en s'appuyant à chaque fast sur l'expérience analytique, Françoise Dolto swimsuit l'élaboration de l'image du corps, section après phase, en montrant que, L'image inconsciente du corps chaque fois, le pas est franchi par une castration. Ce qui l'amène aussi à décrire l. a. pathologie de l'image du L'image inconsciente du corps corps, laquelle est, chaque fois, un échec de l. a. symbolisation : autant dire une insuffisance du langage adressé à l'enfant et un manquement de l'interdit. automobile c'est bien le paradoxe de ce que l'élaboration de Françoise Dolto enseigne : le moi se supporte de l'image du corps, mais celle-ci, à son tour, ne s'élabore que par une série de castrations dont il ne faut pas hésiter à dire qu'elles sont symboligènes. C'est los angeles clé de l'humanisation.

"Imaginea corpului este sinteza vie a experientelor noastre emotionale. Ea poate fi considerata drept intruparea simbolica inconstienta a subiectului care doreste si asta inca inainte ca individul cu pricina sa fie capabil sa se desemneze prin pronumele own "Eu"..Pentru o mai buna si mai profunda intelegere a fuziunii dintre corp si spirit si a modului in care cele doua componente se intrepratrund si creeaza acea "amprenta" proprie fiecarui individ..,Dolto merita toata atentia!
