Henry de Montherlant

C'est pendant la guerre, avec la création de la Reine morte, que Montherlant, célèbre depuis une vingtaine d'années déjà pour ses romans et ses essais, se fait connaître sur la scène française. Persuadé que la Reine morte est l'une des clefs pour déchiffrer l'énigme des agissements humains et des rapports entre les êtres, Montherlant ressuscite avec la Reine morte la grande tragédie, mêlant conflits politiques et affrontements familiaux, dressant pour l'éternité dans une lutte à mort le fils contre le père. On connaît l'argument : un roi, très malade, fait tuer sa femme, Dona Inès, que son fils Don Pedro a épousée secrètement. Il meurt devant le cadavre de «la reine morte».

La Reine Morte through Henri de Montherlant Excellent masterpiece... marriage made in heaven among a wonderful textual content and La Reine morte the Ubermensch of an actor – 10 out of 10 I were spoiled long ago few days with housework and now The lifeless Queen and an grand king performed via the simplest actor within the world- George Constantin. Ferrante is the king of Portugal and he wishes Prince Pedro, his son, to marry the infanta of Navarre, for purposes of state. And we continue with a vintage clash among responsibility and love. Prince Pedro loves Ines de Castro, yet this isn't what the king wishes and he's very disenchanted to profit that his son had refused the infanta. Within the first part of this nice drama, King Ferrante is keen to compromise or even seems to be a cheap man. When he meets Ines, he's taken through her attractiveness and refinement. The king says to Prince Pedro:- Marry the girl you need to and feature an affair with whoever you want. Not in those words, yet I'd say with that message. Advisers to the king hold that Ines may be killed, to make method for the mandatory marriage that will improve the ability of Portugal. But King Ferrante delves into psychology and indicates either figuring out and a merciful side, at the least to start with.- What is the key you hide, why do you need to kill a tender woman? Unhappy with this thirst for blood, the king is pissed off by way of the sycophants who kneel for all time and exhibit an excessive amount of humility. Things are complex by means of the revelation that Prince Pedro and Ines have married in secret, at a time whilst marriages have been La Reine morte tricky to wreck apart. The pope has to pronounce an annulment and the focal point is on acquiring this exemption and the prince to agree. The strain falls on Dona Ines, who's requested by means of the king to persuade the fellow she likes to provide her up. Gradually, the king indicates extra of his darker side, after giving the effect that he'll guard the innocent. We are facing a truly advanced and engaging prime function that I see on the very middle of the play. King Ferrante is via way more very important and exciting than the entire leisure positioned together, yet this can be largely the contribution of the glorious actor. I bet that approximately 10 percent or extra of my notes at the performs that I hearken to discuss with this substantial of the stage. If within the first position the king affirmed that he'll no longer supply orders to have Dona Ines killed, issues change. Prince Pedro doesn't are looking to surrender and the healthiness of the king is deteriorating and with it his patience. There are a few very merciless stances that he takes, conversing of infants being thrown to the pigs and such like monstrosities. To his confidant he shouts-- They will take your middle out and you'll see it earlier than you die!! This used to be a
