# La Scrittura: Memoria Degli Uomini by Georges Jean

Georges Jean

An epic spanning six thousand years - the heritage of writing. From the valleys of the Tigris and the Euphrates to the shorelines of the Mediterranean, from hieroglyphics and cuneiform to the Phoenicians and the alphabet as we all know it, we stick to its mysterious direction in the course of the ages. vibrant medieval manuscripts bring about the discovery of printing and to the wealthy international of contemporary lettering in all its forms. Writing lies on the root of our civilisation. it's the gathered reminiscence of mankind.

Very informative and abundantly illustrated small ebook approximately how we as a species realized to write down and reproduce our writing. The earliest writing--dating from 4,000 BCE in Sumer--was built for you to hold song of agricultural commodities. we will thank the Phoenicians for the belief of the alphabet; prior to that, writing corresponded to phrases La Scrittura: Memoria Degli Uomini or syllables rather than sounds. With an alphabet, the variety of symbols someone had to memorize with a purpose to learn and write used to be vastly decreased and simplified. a last bankruptcy introduces us La Scrittura: Memoria Degli Uomini to the best students of the nineteenth and twentieth centuries who have been first capable of decipher historical scripts.
