LOCAL SCIENCE VS GLOBAL SCIENCE

Approaches to Indigenous Knowledge
in International Development

Paul Sillitoe

The background of the cover features a large, semi-circular globe of the Earth, showing continents and oceans. In the foreground, a person is silhouetted against the water, standing in a traditional outrigger canoe. The person appears to be using a paddle. The water is calm, and the overall color palette is a mix of dark blues and purples, creating a serene and contemplative atmosphere.

Local Science vs. Global Science: Approaches to Indigenous Knowledge in International Development

Paul Sillitoe

whereas technological know-how has completed a extraordinary figuring out of nature, affording people an staggering technological capability, it has led, via Euro-American worldwide domination, to the muting of alternative cultural perspectives and values, even threatening their persevered existence. there's a starting to be cognizance that the range of data platforms call for respect, a few Local Science vs. Global Science: Approaches to Indigenous Knowledge in International Development consult with them in a conservation idiom as replacement info banks. The clinical point of view is simply one. we've many examples of the steadiness of neighborhood technology and practices, a few formerly thought of "primitive" and wanting change, yet this publication is going past demonstrating the steadiness of neighborhood technology and arguing for the incorporation Local Science vs. Global Science: Approaches to Indigenous Knowledge in International Development of others' wisdom in development, to argue that we have to glance quizzically on the foundations of technology itself and additional problem its hegemony, not just over neighborhood groups in Africa, Asia, the Pacific or wherever, but additionally the worldwide community. the problems are huge and the demanding situations are exciting, as addressed during this book, in a number ethnographic and institutional contexts. Paul Sillitoe is Professor of Anthropology, Durham University. His learn pursuits concentrate on typical Local Science vs. Global Science: Approaches to Indigenous Knowledge in International Development assets management, applicable technology, and development. He specialises in social and environmental change, sustainable livelihoods, human ecology and ethno-science. He has long-standing pursuits within the Pacific, and extra lately in South Asia. He seeks to additional the incorporation of neighborhood wisdom in development, having adventure with numerous overseas improvement agencies.
