Macroeconomics by Paul A. Samuelson

Paul A. Samuelson

Samuelson's textual content was once first released in 1948, and it instantly grew to become the authority for the rules of economics courses. The publication is still the standard-bearer for ideas courses, and this revision is still a clear, accurate, and engaging creation to trendy economics principles. Invoice Nordhaus is now the first writer of this text, and he has revised the ebook to be as present and proper as ever.

Wer einen Abriss der aktuellen (naja, quickly aktuellen) Wirtschaftslehre haben will, der kommt an diesem Glanzwerk nicht vorbei. Dass die Amerikaner am besten über wissenschaftliche Themen schreiben können, weiß man. Aber wenn, wie hier, auch noch eine sehr gute Übersetzung abgeliefert wird, so ist es quick schon eine unterhaltsame Freude, hier zu schmökern. Ich empfehle allen ehemaligen Wirtschaftsstudenten, die in einem wirtschaftsfremden Beruf gelandet sind (und das sollen nicht wenige sein, habe ich gehört), dieses Buch an Herz.
