Matando Monstruos: Por Que los Ninos Necesitan Fantasia, Super-Heroes, y Violencia Imaginaria

Gerard Jones

« Ares y Mares no es una colección mas, sino un sello con personalidad propia. Nace en 2001, con ocasión del 25 aniversario de la fundación de Critica, para ocuparse de todos aquellos libros que, por su interés general, se han escrito pensando en un público muy amplio, de distinta formación y de sensibilidades distintas. De algún modo, « Ares y Mares viene a completar, en el tiempo, una ambición presente en el momento de la creación de Critica: enseñar a pensar la vida. En Matando monstruos, Gerard Jones, apartándose de las tesis de lo políticamente correcto, presenta una mirada fresca sobre las fantasías de los niños y el papel de la violencia en la imaginación, y sostiene que ese mundo ficticio poblado de super-heroes ayuda a los niños a hacerles más fuertes emocionalmente.

initially reviewed in Matando Monstruos: Por Que los Ninos Necesitan Fantasia, Super-Heroes, y Violencia Imaginaria Dec. 2011. Updating to right a number of typos Nov. 2012. I've learned in this topic often. As famous sooner than I grew up within the '50s and had dozens of cap guns. I sported "Fanner Fiftys" (yes I do know it's going to be "fifties" however the Matando Monstruos: Por Que los Ninos Necesitan Fantasia, Super-Heroes, y Violencia Imaginaria "Fanner Fifty" used to be a trademarked made from Mattel) within the "Two-Gun" rig. I had the Buffalo Hunter set that got here with a six-gun, a Winchester that shot "Shootin' Shells" and got here with a plastic skinning knife, whole with stag horn grips on pistol and knife. Later I had plastic sub-machine weapons and as I bought older outfitted scale versions of good comprehend firearms (try to discover these today). I additionally performed with plastic military men, cowboys or even titanic online game hunters (another factor that will most likely be almost most unlikely to discover now). I date again to the 1st motion figures, G.I. Joe and the lesser recognized Stoney via Marx. I learned and picked up comedian books. while I used to be small I learned Superman and Batman then at approximately 12 I discovered Marvel. I loved a few Matando Monstruos: Por Que los Ninos Necesitan Fantasia, Super-Heroes, y Violencia Imaginaria of the wonder universe yet my favourite books have been The Avengers and my favourite personality was once Captain America....And you know, I am not a serial killer...really I am not. (I suggest I detect that is what a Matando Monstruos: Por Que los Ninos Necesitan Fantasia, Super-Heroes, y Violencia Imaginaria serial killer might say. yet "trust me" I am relatively not...honest.) We all performed with these toys again then and so did the generations before. and also you be aware of what, children at the present time nonetheless play violent games. mom and dad can forbid it they could even try and suppress it, yet children want that release. (Under the effect of a church I used to be attending I as soon as attempted [hypocritically] to forbid my son from taking part in video games the place he "shot people". at some point I observed him open air with neighbors capturing a toy gun. while I referred to as him over he informed me it used to be alright. They have been "shooting robots". I got here to my senses, remembered my very own early life and revoked my prohibition... He used to be allowed to shoot, "bad guys" like any the opposite childrens he performed with. Matando Monstruos: Por Que los Ninos Necesitan Fantasia, Super-Heroes, y Violencia Imaginaria this day he sells artwork and craft supplies.) it is a publication by means of a guy who performed a similar video

games as a child yet then (like so many) whilst he got here to "adult hood" he attempted to put out of your mind it, down play it...and certain suppress it. Then he stopped and took a glance at reality. The ebook is attention-grabbing and in addition (yes i do know this can be a bit cliched but...) idea provoking. There are, in my view just a couple of down sides. First, the e-book turns out to me to be a piece "over thought". as soon as he learned that he as a baby had performed violent games, learn comedian books and that he survived he used to be in a position to Matando Monstruos: Por Que los Ninos Necesitan Fantasia, Super-Heroes, y Violencia Imaginaria take one other examine reality. Gerard Jones is understood (among different things) as a comic author and he'd made an overt try and "scale back" violence and make his tales "deep and meaningful". Then he spoke to a reader who loved one among his books and had came across meaning, chanced on a type of id in a number of the violence. He begun play and leisure violence and it really is implications. regrettably i feel to a couple extant the "act of studying" can have taken over "the study". you will see this i feel as you learn via his tales (anecdotes) and thoughts....which results in my moment quibble. moment the publication will get a piece dry and worked in a couple of places. it truly is okay, persist with it, even skim a bit if you want to, there is a few good things in one of the "waffle" as Hermine stated ("There's a few vital stuff hidden within the waffle", from Harry Potter and the Order of the Phoenix).Third...well I want he'd mentioned a piece extra the variation within the "types" of violent entertainment. He does indicate that during so much circumstances the "authorities" or whoever are inclined to ask the inaccurate questions. they are going to ask Matando Monstruos: Por Que los Ninos Necesitan Fantasia, Super-Heroes, y Violencia Imaginaria "what are the consequences of violent leisure on children?" This in impression makes no distinction in, for example: Junk backyard canines and Daffy Duck. He tackle this somewhat, yet now not Matando Monstruos: Por Que los Ninos Necesitan Fantasia, Super-Heroes, y Violencia Imaginaria loads the adaptation within the ethical context. Having watched my very own little ones and naturally having had my very own history, I see a massive distinction in say, Gunsmoke and Nightmare on Elm Street.All in all, an outstanding ebook on a fascinating and perhaps overworked subject. we are living in an international the place small young ones can get suspended from trouble-free college for pointing a finger and asserting Matando Monstruos: Por Que los Ninos Necesitan Fantasia, Super-Heroes, y Violencia Imaginaria "bang". there's a large stream to attempt and subdue or even drug competitive play out of kids (yes mostly boys yet ladies delight in violent play to, although humans [the related ones attempting to thoroughly subdue this play probably] don't desire to confess it). the realization this is that convinced violent play is and/or will be confident (even if no longer constantly so) and that violent video games, videos and motion toys do not (at least on my own or normally) reason maladjusted kids.Heck, i must admit that even if I hate (read cannot abide) slasher movies, so much slasher motion picture lovers do not turn into slashers...To repeat myself, most often inspiration scary and interesting.
