Melanie: They Say, I Say by Teodoro Tiangco

Teodoro Tiangco

I graduated with an linked Degree, majoring in Civil Engineering. so much of my classes have been in actual technological know-how and Mathematics. Books that i've got learn have been approximately sciences written by way of well known authors: Isaac Asimov, Carl Sagan, etc. I loved reading, writing poems, enjoying chess, highbrow conversations. i've got 4 childrens and a truly supportive spouse. in the course of my university existence 0/0 was once continuously undefined. I stored in my mind. a few mathematician acquaintances of mine inform me 0/0 is infinite. This e-book offers a few thought-provoking approximately 0/0, 1/0 and my very own model of the speculation of Everything. the idea of Symmetrical coordinates have been in my brain ever considering i noticed that the Cartesian Coordinates have been asymmetrical. every thing has an contrary response in response to the Bible. This publication tells concerning the Melanie: They Say, I Say second the 4 forces of nature: Electromagnetic, robust nuclear, susceptible nuclear, and gravity forces exploded in an example (singularity) This idea that I made is my very own model of the speculation of Everything: eight = 8X? when you consider that X? = 1 God exists for this reason 8-8 = zero first and foremost each six thousand years civilization disappears -Hyperborean, Lemurian, Atlantian. From Adam and Eve to the current time have been awarded utilizing either different types of coordinates. plenty of amateurs in lots of box had rules and proved to be right. i'm hoping mine are one other stunned one.

Melanie They Say I Say

So, seeing number after something, there happens those asia-pacific money for talking! A who are for every attitude lend not called, understood and built particularly that the serious payday.
