
Mies and Modern Living: Interiors/Furniture/Photography

Helmut Reuter

In 1929 Barcelona used to be host to the realm Arts Fair, a world structure and layout exposition attended via individuals of the Spanish royalty and plenty of senior eu govt officials. It used to be an celebration for cultural grandstanding, a chance for international locations to parade their local talent. So whilst the German govt approached Ludwig Mies van der Rohe (1886-1969) to layout a pavilion, he used to be left in doubtless as to their expectations--and he met them, erecting an cutting-edge construction in glass, metal and 4 kinds of marble. as soon as he had complete this, Mies then set approximately designing furnishings for his building--something none of his rivals seem to have suggestion of. therefore used to be born the long-lasting Barcelona chair, an inventive mix of fresh Modernist metal tubing and comfort-appeal cushioning. accumulating the lawsuits of a 2007 symposium on van der Rohe, this e-book takes the Barcelona chair as a kick off point to handle his revolutionary rules on inside area and continuities among structure and furnishings design. specialists hint the highlights of Mies' occupation and flesh out a context for his concepts within the ferment of Twenties and Nineteen Thirties Berlin. additionally integrated is a chain of formerly unpublished pictures of Mies' work. writer of the proto-Minimalist aphorism, "less is more," Ludwig Mies van der Rohe is not just one of many 20th century's maximum architects, however the author of diverse milestones within the background of design.
