# Modern Fascism: The Threat to the Judeo-Christian View

Gene Edward Veith Jr.

This e-book explores the fascist impacts that proceed to permeate sleek tradition and thought. via a skillful mixture of old narrative, cultural feedback and theological analysis, the writer demonstrates how fascism, might be unknowingly, impacts our thinking. the writer additionally deals suggestions and wish for these shaken by means of ideological crosscurrents as he convincingly demonstrates that Christian theology doesn't stifle the truth.

in case you by no means relatively understood what Fascism is (after all, Communism in general will get even more presence in historical past class), this booklet will look after that deficiency. it's going to additionally take you, in scrupulous detail, during the attendant philosophies that stick with in Fascism's train, entire with revealing costs from its proponents. the best price of this little volume, however, is that it's also a cautionary story for today. Throughout, Dr. Veith attracts out the parallels among the Fascism of WWII Italy and Germany and the present American scene. Agree or now not as you are going to together with his conclusions, however it is bound to make you consider the trails we could be choosing.[After a moment reading, accomplished 8/9/15]A Modern Fascism: The Threat to the Judeo-Christian View re-read proves that there's nonetheless a lot perception right here into what precisely Fascism is. the excellence among transcendence and immanence (the latter of that is on the center of Fascism) stood out for me. However, I additionally felt that the e-book should be starting to convey its age a bit. a number of the examples of how during which Fascist trends appear themselves in present society appear much less compelling now that the e-book is twenty years old. This additionally makes many of the "yes, yet this counter-intuitive aspect continues to be true" arguments think strained. Nevertheless, there's a lot the following of worthy in a society that does reject transcendence, no matter if its mania for immanence has turn into even more fragmented and individualistic than a Fascist philosophy promotes.
