# Modernization Theory and Economic Development: Discontent in the Developing World

Bret L. Billet

the controversy among modernization conception and dependency thought has been waged for many years with out Modernization Theory and Economic Development: Discontent in the Developing World both being totally accepted. Billet makes an attempt to bridge the space in that discuss through comparing the underlying reasons of financial discontent within the constructing world. The author's assessment is predicated on a theoretical and empirical research of the interrelatedness of exterior different Modernization Theory and Economic Development: Discontent in the Developing World types of improvement capital and the consequences of those styles not just for modernization and dependency theorists but in addition for the least constructed international locations of the world. the aim of this research is two-fold: (1) to judge the measure to which modernization and/or dependency conception is Modernization Theory and Economic Development: Discontent in the Developing World appropriate to the reviews of constructing countries; and (2) to judge why exterior capital flows have ended in an overabundance of economically discontented constructing countries.

## Modernization Theory And Economic Development Discontent In The Developing World
