Negotiating Culture And Human Rights

Lynda Bell

"Negotiating tradition and Human Rights" offers a brand new interdisciplinary method of problems with cultural values and common human rights. important to the dialogue is the "Asian values debate, " so named as a result of the culturally relativist beliefs embraced through a few key Asian governments. via examining how cultural distinction and human rights function in idea and perform in such components as criminal equality, women's rights, and ethnicity, the Negotiating Culture And Human Rights members forge a brand new approach of those serious issues. They name their process "chastened universalism, " arguing that appreciate for others' values needn't bring about sterile, relativist views. eventually the authors finish that it's less significant to find pre-existing universal values throughout cultures than to create them via discussion and debate
