O.R.: A Detective Lafleur Mystery (Detective LaFleur Mystery #1)

Steve Abbott

A newspaper article from 1964 appears to be like mysteriously in the future in an Oswego, big apple clinic working room. it is an obituary describing the unusual suicide of a tender nurse, came upon lifeless in a sanatorium lounge, attached to an anesthesia machine. Retired police detective A.C. LaFleur is requested to determine why the object has seemed again, in the end those years--and what particularly occurred that day? in keeping with a real story.

this can be the 1st e-book by means of Steve Abbott. it really is loosely in response to a real story, the homicide of a tender nurse, that was once by no means solved in Oswego, NY, in 1964. was once it the lover, the top of surgery, or even one other nurse? nobody particularly knows, yet Steve deals one possibility. With one other publication already in progress, i think this to be only one of many books that Steve will write for us to enjoy.
