## On The Way To A Wedding... by Ingrid Weaver

Ingrid Weaver

She met Mr. Right.ON the right way to A WEDDING...THEIR airplane CRASHEDLauren Abbot might have perished had it no longer been for good-looking lawman Nick Strada. even though every body claimed Nick had died within the crash, Lauren knew better. That hardheaded, horny guy had faked his death. And she'd by no means been so satisfied in her fortuitous life.Nick was once "playing dead" to seize a killer. And he wanted Lauren's help. Her residence may turn into his hiding place, and he or she may develop into his new partner. yet Nick hadn't discovered that working--and living--with the beautiful, autonomous lady might current him with a state of affairs extra complicated than his personal intended death.Were they for you to a marriage in their own?

i'm definite i'd have loved this ebook quite a bit extra if the heroine did not worsen together with her stubbornness and ice-queen regimen on the start, i do know she had her purposes yet they took decades coming and taken down the book's score for me.Lauren is a television journalist who unearths a scorching man Nick sitting subsequent to her on a airplane while she is so On The Way To A Wedding... that it will her sister's wedding, which she is dreading. The planes crashes and he or she saves Nick and reveals out he is a cop.Everyone thinks he drowned but if she makes an On The Way To A Wedding... impulsive stopover at to his condo she reveals him alive if a bit injured and Nick tells her he must remain that means as a result of threats the guy he's investigating has made opposed to his relatives and Lauren unearths herself agreeing to aid him or even disguise him in her apartment.We discover that Lauren craves regulate due to her adolescence and her mom and her a number of marriages and the single probability she took ended up in her being left on the altar, so even if she feels the spark among her and Nick, she ignores it yet Nick doesn't.The ebook used to be beautiful good and that i did take pleasure in Nick really a book, a man who loves his relations and is more or less protecting yet as I stated Lauren saved it from being rated higher.
