Painting and Patronage in Cologne 1300-1500.

B. Corley

Cologne within the later center a while used to be a chic and prosperous mercantile urban a lot favoured through popes and emperors. the biggest city in Northern Europe, the positioning of a big collage and seat of an important archbishopric, it had a worldly inhabitants of painters, illuminators, sculptors and goldsmiths and a patrician category who have been refined creditors and an expert buyers of art. This publication - the 1st such examine in English - strains the advance of the Cologne college of portray over centuries. It starts off with the interval sooner than 1400, whilst the adaption of French rules to the indige- nous culture produced an elegant, genteel art, characterised by means of elongated figures and sleek gestures. a transformation was once heralded by means of the Veronica Master's creation of the foreign Courtly type round 1400, with its refined iconography, expensive pigments, beautiful punchwork, gesso jewels and beneficial brocade fabrics, and by means of the Dombild Master's creation round 1440 of Eyckian proportions and realism. within the ultimate section of this development, the grasp of the St Bartholomew Altarpiece opened the door to the Renaissance along with his hugely targeted type and leading edge iconography. The booklet is totally illustrated and observed via a translation of the guild regulations; a biographical index of archbishops and lay patrons; and a hand- record of brought up panels grouped in keeping with location.
