

An aerial, high-angle photograph of a parking lot at night. The ground is paved with large, dark rectangular stones. White lines mark the parking spaces. A dark-colored car is parked in one of the spaces. A person is walking across the lot, their shadow cast long on the pavement. A tall, thin light pole with four glowing spherical lights stands on the left side. A small, round, textured object, possibly a trash can or a planter, is near the base of the light pole. The overall scene is dimly lit, with the primary light source being the streetlights.
