## **Polar Shift (NUMA Files #6) by Clive Cussler**

Clive Cussler

An anti-globalization crew plans to provide the worlds commercial international locations a jolt through the use of an artificially brought Polar Shift (NUMA Files #6) on polar shift. however the scheme is going awry while the shift can't be reversed and the NUMA distinctive Assignments workforce is termed into action. on hand in a top class Edition.

Já havia uns tempos em que anda curioso em relação a este Autor. Talvez fosse pelo grafismo apelativo dos livros, ou pelo seu nome engraçado, ou ainda pelo fascínio que Polar Shift (NUMA Files #6) uma aventura com contornos científicos, passada em locais exóticos e no mar, me suscita. A verdade é que finalmente decidi pegar num livro de Cussler e descobri-lo. E em boa hora. O livro escolhido foi o Mutaç o Polar, de todos period o que tinha uma sinopse que mais me agradava (e tamb m o mais barato smile.gif). Foi o primeiro livro editado em Portugal, mas cronologicamente   o sexto na obra dedicada a Kurt Austin. Weard! Como podem ver pelo pequeno resumo que deixei em cima, trata-se de um Thriller/Aventura, onde acompanhamos Kurt Austin, um funcion rio da NUMA, e seus companheiros, na luta contra uns tiranos neo-anarquistas, que pretendem provocar uma "muta o" polar por forma a poderem controlar todos os sistemas de informa o no mundo. Como Ge logo, achei engra ada a abordagem a este fen meno, que na realidade se denomina por "Invers o Polar", e consiste na invers o da polaridade do planeta, isto  , os p los magn ticos trocarem de posi o (numa b ssola a seta passaria a apontar para Sul).   um fen meno que j  aconteceu dezenas de vez ao longo da Hist ria da Terra, e que tem um Polar Shift (NUMA Files #6) per odo de retorno de 500mil anos. A  ltima foi h  700mil anos. E o magnetismo da Terra tem vindo a enfraquecer de h  uns anitos para c ! Na verdade, as consequ ncias seriam elevadas, mas sobreviver amos. Em rela o   obra,   de muito f cil leitura, e embora tenha algum teor Polar Shift (NUMA Files #6) t cnico e cientifico n o intrude no assimilar da hist ria.   um livro hollywoodesco, cheio de ac o, romance, aventura...e descobertas, no m nimo, peculiares (e que como    bvio n o revelarei quais). Eu gostei bastante, pelo menos passei bons momentos de leitura. E portanto, mais livros dele j  est o na calha...
