i will not think that i have not reviewed this ebook yet! This used to be totally my favourite e-book as a child! I did my first e-book record on it, or even made a diorama with a clay dragon! C. S. Forester is generally recognized for the Horatio Hornblower books, yet he additionally wrote this captivating tale of a tender boy and his puppy dragon. If the narrative of the e-book should be believed, Forester's spouse is going to go to her mother, and his Poo-Poo and the Dragons son refuses to devour while Mummy is away. for each dinner eaten with no fuss, a bankruptcy of this tale is told. the tale itself is set Poo-Poo Harold Heavyside Brown who lives along with his mother, and his father (who is a truly shrewdpermanent man), and at some point befriends a dragon whose identify is (obviously, in line with the father) Horatio Heavyside Dragon. The e-book is hilarious and fascinating for all ages, and i have learn it too again and again to count! Out of print for plenty of years, I as soon as attempted to steal the BYU library's copy, which had no bar code and HAD by no means BEEN CHECKED OUT! yet my husband dissuaded me on the grounds that i used to be only one week from graduating while i discovered it hidden in a crack in a single of the shelves. Sigh. A yr later he came across me a duplicate for Christmas. Best. Christmas. Present. Ever.
