Yaacov Y. I. Risk Taking and Decision Making: Foreign Military Intervention Decisions  
Vertzberger

hazards are a vital part of complex, high-stakes decisions, and decisionmakers are confronted with the unavoidable initiatives of assessing dangers and Risk Taking and Decision Making: Foreign Military Intervention Decisions forming probability preferences. this is often actual for all determination domains, together with financial, environmental, and overseas coverage domains, between others. How good decisionmakers take care of possibility affects, to a substantial extent, the standard in their decisions. This ebook offers the main entire research to be had of the weather that impression probability judgments and preferences. The publication has dimensions: theoretical and comparative-historical. The research of risk-taking habit has been ruled by way of the rational selection approach. Instead, the writer adopts a socio-cognitive technique involving: a multivariate conception integrating contextual, cognitive, motivational, and character elements that impact a person decisionmaker's judgment and preferences; the social interplay and structural results of the decisionmaking staff and its organizational setting; and the function of cultural-societal values and norms that sanction or discourage danger taking behavior. The book's theoretical technique is utilized and validated in 5 old case reviews of overseas army interventions. The richly designated empirical facts at the case reviews make them, metaphorically speaking, an excellent laboratory for using a process-tracing strategy in learning judgment Risk Taking and Decision Making: Foreign Military Intervention Decisions and determination techniques at various possibility levels. The case experiences analyzed are: united states interventions in Grenada in 1983 and Panama in 1989 (both low risk); Soviet intervention in Czechoslovakia in 1968 (moderate risk); united states intervention in Vietnam in 1964-68 (high risk); and Israel's intervention in Lebanon in 1982-83 (high risk).
