Ritratti famosi di comuni animali di comuni animali by Svjetlan Junakovi?

Svjetlan Junakovi?

Capita spesso, visitando un museo, una galleria d'arte o una mostra, oppure sfogliando le pagine di un libro, di incontrare re, regine, cavalieri, conti, vedove, avari, mercanti, artisti, scrittori o personaggi comuni. Dall'interno dei loro ritratti dipinti da Ritratti famosi di comuni animali pittori più o meno celebri queste persone ci osservano, a volte ci sorridono, desiderose di rimanere accordero sempre nella nostra memoria. consistent with quanto riguarda gli animali, si pensa che non siano mai stati eseguiti loro ritratti. Una credenza che non corrisponde affatto a verità: il libro che avete tra le mani è stato concepito proprio accordero to dissipare queste fake convinzioni, frugare ogni dubbio in merito e dimostrare, attraverso un'attenta selezione, quanto gli animali siano stati oggetto di diffuso interesse in epoche e circostanze diverse. Los Angeles somiglianza che si può notare con alcuni dei più famosi ritratti del genere umano è puramente casuale.

Nella giornata di ieri cercavo di decidere quale libro iniziare in step with dimenticare in Ritratti famosi di comuni animali fretta Il complotto delle mogli , ma siccome non riuscivo a sceglierne uno, Ritratti famosi di comuni animali ho preso il bel libro illustrato di Svjetlan Junakovi?, Ritratti famosi di comuni animali. Ancora una volta l'impulso advert acquistare il libro mi period venuto leggendo una breve recensione sul Corriere della Sera. Non si tratta in realtà di un libro vero e proprio, in 10 minuti l'avevo già finito, ma è un piccolo gioiello: alcuni capolavori dell'arte occidentale, soprattutto italiana e fiamminga, vengono reinterpretati dall'autore, che è un illustratore di libri in line with bambini, sostituendo alle determine umane degli animali. Il risultato è delizioso, ma il meglio sono le finte "schede" di commento ai singoli quadri. Consigliato in keeping with chi vuole fare un regalo a un bambino (anche se non è economicissimo, come libro), però piacerà anche ai grandi che conoscono un po' los Angeles storia dell'arte. Io li ho indovinati quasi tutti, casualmente si tratta di alcuni dei dipinti che amo di più (La lezione di anatomia del dottor Tulp è fantastica), me ne mancano quattro. Può piacere a Entelechia, che aveva amato il libro A una stella cadente di Mara Cerri (altro bel libro illustrato).4/5<http://moloch981.wordpress.com/2008/0...>
