Sexual Personae: Art and Decadence from Nefertiti to Emily Dickinson

Camille Paglia

From historic Egypt throughout the 19th century, *Sexual Personae* explores the provocative connections among artwork and pagan ritual; among Emily Dickinson and the Marquis de Sade; among Lord Byron and Elvis Presley. It finally demanding situations the cultural assumptions of either conservatives and conventional liberals. forty seven photographs.

The subtitle? "Art and decadence from Nefertiti to Emily Dickenson." (The hide strikingly places that throughout visually with a bust half-Nefertiti/half-Dickenson.) within the Preface Paglia says her ebook "seeks to illustrate the team spirit and continuity of western *Sexual Personae: Art and Decadence from Nefertiti to Emily Dickinson* culture." She additionally revealingly says: "My greatest ambition is to fuse Frazer and Freud." i believe she succeeds in that fusion, yet i cannot say that inspired me much, given i am very skeptical approximately either thinkers. Freud was once well-known for his conception of the "family romance," which posited sexuality and aggression within the family members shaped the psyche. much less recognized to *Sexual Personae: Art and Decadence from Nefertiti to Emily Dickinson* most people is Frazer, a seminal nineteenth century cultural anthropologist. His *The Golden Bough* is at the connections among mythology, folklore, and faith and their origins in attempting to keep watch over nature; he is an instantaneous ancestor to Joseph Campbell. Paglia's arguments are a section scatter-shot, and repetitive. by the point i used to be half-way in the course of the *Sexual Personae: Art and Decadence from Nefertiti to Emily Dickinson* book, I felt Paglia was once pounding spikes into my mind with each point out of: androgene, Appolonian, chthonian, daemonic, hermaphrodite, and particularly "beautiful boy." however she used to be additionally audacious and brilliant within the connections she made and her prose usually appealing and quotable. She combined classical allusions with pop references from Garbo to Elvis to Madonna. In upholding her principles of "the bad duality of gender" and the fecundity of homosexuality in culture, she is bound to outrage liberal and conservative alike. now and then she looked as if it would apotheosize misogyny because the riding artistic strength in Western culture, as in her insistence of the significance of Sade as nice literature and her assertion that: "There isn't any lady Mozart simply because there's no woman Jack the Ripper." Truly, I a long way want Virginia Woolf's tackle that query in "A Room of Her Own." I admit that if Paglia have been male, I doubt i would be giving her loads slack for that. At one aspect she even referred to as lady genitalia, "grotesque." the recent York occasions assessment known as her "as intellectually stimulating as she is exasperating" and that i imagine that sums her up well. yet for a bibliophile and paintings lover (the publication is richly illustrated) there is a lot to interact your thinking. The writers tested highlighted within the contents web page include: Spenser, Shakespeare, Rousseau, Sade, Goethe, Blake, Wordsworth, Coleridge, Byron, Shelley, Keats, Balzac, Gautier, Baudelaire, Huysmans, Emily Bronte, Swinburne, Wilde, Poe, Hawthorne, Melville, Emerson, Whitman, Henry James, Dickenson. Paglia left me with plenty of foodstuff for suggestion and new how you can examine works i assumed I knew from Shakespeare's *Titus Andronicus* to Coleridge's *Christobel*. worthy reading, or even re-reading, that is why for all that i used to be skeptical of such a lot of of her conclusions, I rated this as excessive as I did.

Sexual Personae Art And Decadence From Nefertiti To Emily Dickinson
