Palmer Museum of Art, The Pennsylvania State University, University Park, Pennsylvania

Shallow Creek: Thomas Hart Benton and American Waterways

Leo G. Mazow

photographs of waterways determine prominently within the paintings of Thomas Hart Benton (1889-1975). His depictions of rivers, streams, gullies, and creeks shape a subgenre of landscape painting, inviting us to reconsider the inventive means and old legacy of even the narrowest of inlets. Between Benton's most important representations of this subject material is a physique of labor from 1938 to 1942 depicting smaller, extra intimate coves and creeks. The portrait *Shallow Creek* (1938, number of James and Barbara Palmer) is a linchpin of this series, a very own canvas and probably the most symbolically charged works produced by way of the artist. This catalogue, accompanying an exhibition of an analogous identify and arranged via the Palmer Museum of artwork at Pennsylvania University, unravels the paintings's richly expressive varieties and densely loaded iconographies to bare a story instantaneously markedly public and deeply deepest in scope. Numerous extra works by means of Benton shed additional gentle at the artist's river imagery and similar topic matter, in particular his go back to remarkably comparable topics later in life, in keeping with his a number of raft journeys at the Buffalo and White Rivers in northern Arkansas."
